

L2000 Programmable Logic Controller

Terminal Board

These Terminal Blocks provide excellent lightning/surge protection and alleviate the need to install discrete interposing devices to the enclosure back-pan.

They also offer the following features:

- Pull-apart two piece wiring blocks for fast and easy wiring/re-wiring
- Separate wiring blocks for each I/O type with wire points fully labeled and color coded
- Versatile internal or external analog power source
- Digital outputs have socketed 10A relays with "ON" LED
- Entire terminal block snaps On/Off standard track mount
- Onboard passive circuit protection to protect programmable controller
- Available with a built-in isolated 24V current loop power supply
- Individually fused AI/AO power source
- Fused DI source and common with clamping diodes
- Onboard spare fuses for all fuse types

Three Levels of Protection Available:

Class A:

2 MOVs at each AI/AO fused

Class AA:

2 MOVs at each AI/AO | Dual Gas Discharge Tube at each AI/AO fused

Class AAA:

Full 12 Stage, 1000 Joule lightning protection at each AI/AO
